

i-Link Solutions Capabilities

i-Link Solutions provides agile, innovative, cost-effective and secure IT solutions to meet the ever changing needs of our government and commercial customers.

Company overview

At i-Link solutions, we seek excellence for all of the products that we create. Our team of highly motivated and dedicated professionals with a passion for technology meets every morning to reaffirm the reasons why we're here. We seek to create a world where technology is accessible and efficient with products that are human-centric and tailored for our customers. As we continue to grow, our client's satisfaction remains the number one thing on our agenda.

Our Agile methodologies are created to ensure that the technical solutions we provide our clients are designed to meet their goals and needs. This approach allows us to create long-lasting and trusted customer-first relationships.

Our services are used by key players in many industries and governmental organizations. Our federal customers include the Department of Homeland Security, U.S. Citizenship and immigration Services, Federal Aviation Administration, General Services Administration, and Department of Veterans Affairs.
